Introducing...

The SunRise™

Solar-Powered Attic Fan

Let the SUN cool your home!

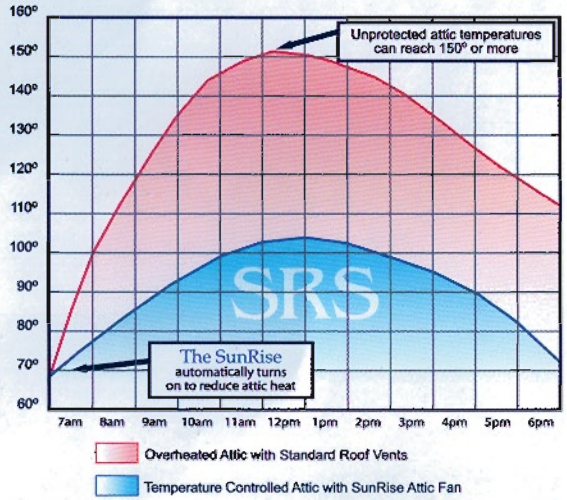
The environmentally friendly way to cool and protect your attic and roof

Made in the USA

Your attic's worst enemies are Heat & Moisture

On hot days –

You know the problem: your attic has become a giant radiator, forcing excess heat back into your living space - driving your indoor temperature and cooling cost through the roof.



On mild days –

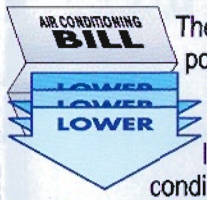
Even when air conditioning isn't needed, the SunRise™ continues to circulate fresh air creating a more comfortable living environment in your home.

It's easy being *Green*...

Because the SunRise™ uses Sunlight to generate its own electricity:

- It burns ***NO*** fossil fuels
- It creates ***NO*** pollution
- It runs on an ***UNLIMITED*** Renewable Energy Source... the **SUN**!

The SunRise™ Solar-Powered Attic Fan pays for itself



The SunRise™ is a unique, solar-powered vent fan that pulls the heat right out of your attic. This means less heat dissipating back into your living area, less drain on your air conditioning system, and less cost to you. In fact, up to 30% less money spent on air conditioning costs alone!

additional options

- ✔ Gable Style *(mounts inside attic behind any vent)*

- ✔ Curb Base *(for flat or low-slope roofs)*

- ✔ Remote Panel Unit **the ShadeBuster RP™** *(For maximum sun exposure!)*

New for 2009!

- ✔ Thermostat - for dry climates *(turns unit **ON** at 80°, **OFF** at 65°)*

The SunRise™ removes heat and moisture keeping your attic fresh & dry!

- ✔ *Comes fully assembled*
- ✔ *No electrical hook up or wiring*

- **Extends the life of your HVAC equipment**
- **Helps prevent mold & mildew growth**
- **Reduces ice dams in colder climates**
- **Removes attic heat & moisture**
- **Prolongs the life of your roof**

What others are saying –

"My attic was 25-30 degrees cooler after installing the SUNRISE. I saw an immediate drop in electric/cooling utility bills!"
Jeff Ofstedahl, Arizona

"Before the SUNRISE was installed on my roof, my upstairs was really warm...now my air conditioner runs less. The savings are piling up!" *Mike Matz, Colonel, USAR (Ret) Indiana*

"The SUNRISE has proven to be the most reliable, durable, and effective of all the solar fans we've offered over the years. A Superior product from a superior manufacturer."
Dan Marshall , Owner, Innovative Skylights, Texas

"We have very hot and humid summers here in New York State... The SUNRISE fan has made our house much more comfortable in the summer."
Peter Sheehan, Former Executive Director, North American Board of Certified Energy Practitioners (NABCEP)

Reducing energy consumption worldwide through solar-powered ventilation!
